

3.12.2015

Group 4, Step 1: Protein A Sepharose Affinity Chromatography of hVEGFR-3(ECD)/Fc

VEGFR-3Fc_PAS_2015-12-03

Starting material:

400ml of conditioned
S2 cell supernatant
(pH not adjusted)

Buffer A (binding buffer):

1xPBS/0.05% Tween 20

Buffer B (elution buffer):

0.1 M sodium citrate, pH 3

Neutralization buffer:

1M Tris pH 8.5 (200 μ l per
ml of elution buffer)

Washing steps:

only buffer A
